EDUCATION

B.Tech in Computer Science & Engineering , CVRCOE, Hyderabad CGPA: 8.52 (Till 6th Semester)	2023 – 2027
Intermediate , Narayana Junior College, Hyderabad Percentage: 96.3%	2021 – 2023
10th , Candor Shrine I Senior Secondary School, Hyderabad Percentage: 78.4%	2021

EXPERIENCE

Turing <i>AI Evaluation Intern</i>	March 2026 – May 2026 <i>Remote</i>
- Evaluated Large language model (LLM) outputs through side-by-side (SxS) analysis, assessing factual accuracy, relevance, coherence, and overall response quality to support Generative AI model evaluation. - Conducted fact-checking and quality validation of 5,000+ AI-generated responses, identifying hallucinations, factual inconsistencies, and guideline violations while maintaining 98% evaluation accuracy.	

PROJECTS

Clarity-Hub <i>Next.js, Tailwind CSS, Node.js, FastAPI, MySQL, Prisma, AWS, Redis</i>	June 2025
Aim: Develop an AI-driven learning and productivity platform that generates personalized learning roadmaps, assessments, and progress analytics to accelerate skill development. Result: - Generated personalized learning roadmaps covering 50+ technology topics and implemented an assessment module with 100+ quiz questions for continuous skill evaluation. - Improved backend performance by 35% through optimized API design, Prisma ORM integration, and Redis caching, ensuring scalable and reliable user experiences.	
AI-Interview-Preparation-Platform <i>Next.js (React 19), Express.js, TypeScript, Node.js, Prisma ORM, PostgreSQL, SQLite, Google Gemini API, Web Speech API, Tailwind CSS, Recharts, Docker</i>	May 2026
Aim: Develop a premium AI-powered interview preparation platform that enhances candidate readiness through intelligent mock interviews, resume intelligence analysis, real-time speech transcription, coding assessments, and performance driven analytics. Result: - Engineered an AI-powered platform supporting 100+ interview scenarios, 50+ technical topics, automated resume analysis, coding evaluations, and real-time speech-to-text feedback for comprehensive interview preparation. - Built and deployed a production-grade full-stack solution integrating 10+ REST APIs, Google Gemini API, PostgreSQL, Prisma ORM, and Docker, reducing response latency by up to 30% and enabling scalable performance analytics.	

TECHNICAL SKILLS

- Languages:** TypeScript, JavaScript, Java, Python, C++, SQL.
- Frontend & Libraries:** React, Next.js (React 19), Tailwind CSS, Recharts, Web Speech API.
- Backend & APIs:** Node.js, Express.js, FastAPI, REST APIs, Google Gemini API.
- Databases & Caching:** PostgreSQL, MySQL, MongoDB, SQLite, Prisma ORM, Redis.
- Cloud & Developer Tools:** AWS, Docker, Linux, Git, GitHub, VS Code, IntelliJ IDEA.
- Academic Courses:** Data Structures & Algorithms, Operating Systems, OOP & System Design, DBMS.

CERTIFICATIONS

- National Finalist, BuildWithIndia (HackWithIndia):** Ranked among the top **5,000** teams out of **25,000+** participants nationwide; recognized for performance earning a spot at the finale held at the **Google Office**.
- Java Skills Certification - HackerRank:** Verified professional-level proficiency in Java syntax, data structures, and object-oriented programming (OOP).
- Responsive Web Design Specialist - NxtWave:** Completed advanced training in responsive web design, CSS Flexbox, and modern front-end development practices.
- Python Essentials 1 - Cisco Networking Academy:** Professional certification program in Python programming.
- Smart Interviews - Advanced Data Structures & Algorithms Certification:** Trained in DSA, Problem Solving, Competitive Programming, Algorithm Design, and Technical Interview Preparation using Java.

ACHIEVEMENTS

- Achieved a LeetCode rating of **1720** and earned a **3-Star** rating on CodeChef.
- Achieved a **5-Star Gold Badge** in Python on HackerRank.
- Solved **1000+** coding problems across LeetCode, CodeChef, InterviewBit, Codeforces and Smart Interviews.
- College Cricket Team - Super 8s Finalist:** Selected for the top **8** premier teams in the college for **3** consecutive years.
